The Rector Signing Excuse Slips

Ready to Go!
THE RECTOR’S LETTER

Dear Alumni:

Most of you, certainly those who have been away from the School for ten years or more, will remember as a regular part of the autumn scene a number of men leisurely raking leaves on the Chapel lawn, on the grass plots beside the road, and on the spacious area in front of the Schoolhouse. Every day these men worked on, removing the leaves as they fell, and the result was that our grass was everywhere immaculate, from mid-September to the first snowfall.

Today if you were to roll in to have a look at the School grounds, a different scene would greet you. You would see dead leaves instead of grass, and nobody would be raking. Though this does not look so pretty to the aesthetic eye, it indicates a better and sounder way of life than the old one. Nowadays we wait until all the leaves have fallen; then we turn squads of boys loose on them for a few days and rake them up in one fell swoop. We have not yet reached the point where boys drive the trucks that take them away, but that may come in time; and if on the present basis a leaf here and there is left behind, the chemists tell us that it is good for the soil.

If you should prolong your visit to the scenes of your youth and walk up to Long Pond of an afternoon, you might see other boys pouring concrete for underpinning at the Shattuck Boat House, and preferring this hard labor to the lighter work of raking. In these ways and a dozen others the boys are now continuing and developing the Work Program which we began last spring. They do it with commendable good cheer for they realize that their own work, contributed to the care of the School, has replaced that of men who formerly had to be employed for this purpose. Such work has now become an integral and natural part of School life, as normal as football practice or visits to the Tuck Shop, and the School is a healthier community for it.

Prophecy is dangerous, and it is particularly risky to try at such an early date as this to forecast the quality of the Sixth Form: but at the slight risk of having to eat my words subsequently, I shall tell you that they give promise of being well above the average from the point of view of general citizenship; they are interested in the welfare of the School, and vigorous in putting their ideas into effect. They are light-hearted, as boys should be, and the New Upper is a cheerful place to live in. Nobody knows how these same Sixth Formers will turn out from the academic point of view, because as I write no marks have been posted. They are fully aware, though, of the difficulty of getting into college, and there is no reason to suppose that they will not do at least as well as their predecessors of the last few years. Since the Sixth Form sets the style in every respect for the School year, it looks as though we were off for a prosperous session.

I may or may not have told you in previous letters that our entrance list is shorter than it should be, and that it does not reflect a wide enough geographical distribution. To remedy both these shortcomings I wrote during the summer to...
about fifty Old Boys who live in key cities scattered about the country, asking
them if they would stand ready to gather groups of parents who have boys that
might be interested in St. Paul’s, if a master from the School should come out and
talk to them about it. The replies were in almost every case heart-warming
in their enthusiasm, and the consequence is that in late November and early December
Mr. Harman, Mr. Lloyd and Mr. Nazro will head west and south, visiting a series
of cities with a view to meeting prospective candidates and their parents. Mr.
Harman is working out his itinerary at present, Mr. Nazro will start by visiting
Memphis, going thence to St. Louis, Dallas, Houston, New Orleans and back by
way of Charleston and perhaps another city or two. Mr. Lloyd’s first stop will be
Salt Lake City; thence he will cover the Pacific Coast, paying particular attention
to Los Angeles, La Jolla, Santa Barbara, San Francisco, Portland, and Seattle;
and he will end his tour with Minneapolis, always a strong St. Paul’s city. It may
be, too, that we shall take a swing through the mid-West and Southwest, where a
number of Old Boys have indicated their willingness to help, or it may be that we
shall leave this area for another year.

This project, entirely irrespective of the effect that it should have on the
number of entrance candidates, has been a sheer delight because of the renewed
contacts with Old Boys that it has brought about. Some from whom we had not
heard for years are once more in touch with their Old School. Certainly we are
the better for this, and I trust that they may be as well. At any rate, it seems to be
true that the more we ask of them the more enthusiastic they become, a happy state
of affairs for St. Paul’s.

Yours sincerely,
HENRY C. KITTREDGE

FROM THE RECTOR

The School has been saddened by the tragic death of Samuel Carnes Collier, Jr.,
a member of the First Form, who took his own life on Wednesday evening,
October 19th. Sam had been with us for a month, but in that time had made a
place for himself in his form. He was cheerful, active and courageous, a boy who
looked at life and at death without fear. His death has brought sorrow and a deep
sense of loss to our whole School family.

H. C. K.

THE SCHOOL IN ACTION

The first swift month of this school year is over as this is written. The
marks are in, and posted.

We have lived busy days of work and play—learned new lessons, made new
friendships, played on new teams—and each day has been colored with the
autumn colors and filled with the joy of living and learning.

On such a day two weeks ago, the prayer familiar to all of you was heard
in Chapel, and we stirred and smiled for our own sakes as well as for “the chil-
dren playing in Jerusalem.” Yes, it was Cricket Holiday. It was spent happily by
new boys and new masters in the way you all remember. We met together in
the fragrant garden of the Rectory, and
walked from there to the School Cemetery, where we paused a moment to pay our respects under the tall, shadowing pines. Then, across the fields and through the hurricane-thinned Ferguson Woods we went, to Jerry, where the familiar view awaited us. In the near distance, Long Pond was a dark, sapphire blue; the woods were all aflame with color: and the farthest mountain northward melted into the pale, far sky.

At Long Pond we cooked and enjoyed picnic lunch on the Haleyon shore. Urged on generously by Mrs. Kittredge and Miss Van Dyke, we ate hot dogs and ice cream until we could eat no more. Then, assembled contentedly around Mr. Kittredge, we listened to him read “The Making of a New Yorker,” by O. Henry. Some old boys were rowing wherries on the shining, sparkling Penacook waters, and we watched and listened, dreaming bright, waking dreams.

After the reading, the energetic listeners among us ran up the hill, where Mr. Barker organized a baseball game the like of which has never been played before. There was only one inning, but it was enough; the new boys beat the new boys by a score of 23-22, and no one counted the “outs.”

When we departed in our several directions toward School again, it was mid-afternoon. The landscape was green and brown and yellow and red and all the in-between colors; the sky seemed higher and more blue than ever; for all of us there was new, rich meaning in Mr. Scudder’s lines:

How high with hope our hearts were beating
When first we came as new boys here!
How soon the welcome of our greeting
Dispelled each secret, doubtful fear!

Somehow it does not seem likely that we shall ever have a holiday in the Fall called “Football.”

It would be nice, wouldn’t it? But as it is, we play football every afternoon.

Three hundred and fifty-nine staunch Isthmians, Delphians, and Old Hundreds play the game. At this moment, the Isthmians are ahead in the first team series, and it seems almost certain that the final victory will be theirs. So far they have defeated the Delphians twice, (7-0) (13-6) and the Old Hundreds once (13-0). The Old Hundreds, in turn, have beaten the Delphians (25-13). The Delphians are both underdogs and dark horses as this is written. (The writer here confesses that he is a loyal Isthmian.)

But the Delphians lead in the other series, sparked by Mr. Marble’s spectacular, precedent-shattering fourth team, who can now twice-boast the score of 47-0. (Young Derick Nicholas, their star player, is the son of Frederick S. Nicholas of the Form of 1929.)

Forty-nine stalwart soccer enthusiasts practice daily under Mr. Coffin’s able direction. Four outside games are scheduled, with Exeter, Mt. Hermon, Kimball
Union, and Governor Dunner. So far they have played only one game, with Exeter. Exeter won a hard-fought game by a score of 9-0.

A baker's dozen Forestry Club members are busy these afternoons posting the School grounds. They have already repaired the Shattuck pier, cleaned up the rifle pits and the trap-shooting

grounds (the Rifle Club is busy, and the Thanksgiving Shoot a bare month away), and they have plans as well for completing their clubhouse in the woods beyond the Lower School boathouse.

A helpful group, fifteen in number, composes the Recreation and Work Squads. These squads accomplish their respective missions with little fanfare and soul-satisfying results, and have time out to cheer on the football and soccer teams.

In intellectual activity the School is as busy as ever: the Literary Societies, the Language Clubs, and the Scientific Association have begun the year auspiciously. Their debates, lectures, and experiments promise to set high standards.

The Missionary Society has just announced an idea-contest to guarantee the success of the Mid-Winter Fair. Its object is more fun and larger profits.

The Dramatic Club, in preparation for the annual Thanksgiving Play, held try-outs the other evening in the Common Room of Manville House. An enthusiastic gathering read and listened to readings of parts of “Skipper Next to God.” The cast was chosen from this group and the play takes shape at thrice-weekly rehearsals under Mr. Enbody’s confident direction. It promises to be a forceful, moving presentation of a timely theme.

As you can see, the School in Action is much the same from one year to the next. And yet, whether the differences be large or small, they are always significant.

Witness a recent visit to the School from a familiar friend, John Richards, lately Head of English Department. (We have had other welcome visitors—from the Trustees, headed now by Mr. Laughlin, from the Rev. Philip B. Clayton, of Winant Volunteer fame, and from Charles W. Thayer of the Form of 1923, who talked to us on “The Voice of America.”) Mr. Richards talked to us, all too briefly, at Reports. He spoke movingly of autumn, and the autumnal beauties of the School countryside, swiftly spiriting us with him on a jaunt to familiar beloved haunts, where are “books in the running brooks, sermons in stones,” before we hurried off to classes.

And while speaking of visitors, let us not forget to mention our own visitor to South America. Mr. Chapin has left us to accompany the United States Polo Team to Argentina, but he has promised to rejoin us in time for the first day of skating. To insure his speedy return, Mr. Mecham, our weather-prophet, has guaranteed fine skating for us all by the seventeenth of November.

Keep your fingers crossed!

David W. Read, ’40

Arthur W. Laurance Rand announced the results of the 1949 Alumni Fund drive. (His report is printed elsewhere in this issue.) He reported that the Executive Committee had voted that the sum of $10,000 be transmitted to the School as the gift from the 1949 Alumni Fund.

William H. Harkness, '18, reported the good news that the Trustees had decided to go ahead with the construction of the War Memorial Building.

John B. Edmonds, '19, gave a progress report on the War Book and announced that the manuscript should be ready by the first of the year.

Rowland Stebbins, Jr., '27, in the absence of John Watts, '24, chairman, read the report of the Nominating Committee, and, upon motion duly made, Ranald H. Macdonald, '11, was voted a member of the Standing Committee to fill a vacancy, and, upon motion duly made, the following were voted members of the Executive Committee: Arthur W. Bingham, Jr., '18, Chairman, Trowbridge Callaway, '01, Martin J. Keogh, Jr., '04, William M. Evarts, '05, Ranald H. Macdonald, '11, Kenneth S. Walker, '24, John Watts, '24, Rowland Stebbins, Jr., '27, Laurance B. Rand, '27, and August Hecksher, '32.

Considerable discussion ensued as to the 100th Anniversary of the School which will occur in 1956. The following resolutions were presented and passed:

1. That the Alumni Association is ready to cooperate in every way with the plans of the Board of Trustees, and that it looks to the Board of Trustees for leadership in forming a joint committee charged with the responsibility of formulating the policy on the Anniversary and undertaking details.

2. That the president of the Alumni Association appoint members representing the Alumni Association to serve under Mr. Gordon on such a joint committee with the Trustees.

As retiring chairman of the Board of Trustees, Reeve Schley, '99, was asked to make a few remarks. Mr. Schley congratulated Henry A. Laughlin, '10, as his successor and reported that, as a grandfather, he felt it was time to pass the reins on to a younger man. He offered his continued help to the School in every way possible and with some emotion indicated his sorrow on retiring from the job he undertook almost 25 years ago. Mr. Schley described in some detail the financial analysis of the Memorial building as well as the financial problems of the School today which indicate a continued deficit in operation. The reduction of this deficit is under continuous study and constitutes the most serious problem of the moment. He reported his complete confidence in the present masters and in the good general atmosphere now obtaining at the School.

Following the prolonged applause, C. Jared Ingersoll, '13, 1st vice-president, offered the following resolution, which was duly seconded and passed:

WHEREAS, for twenty-three years Reeve Schley has held the position of President of the Board of Trustees of St. Paul's School; and

WHEREAS, he has during that period given unreservedly of his time, energy and wisdom, inspiring others to a similar devotion; and

WHEREAS, the School, during the long period of his Presidency, has kept a steadfast course, adjusting itself to the deep transformations which have taken place in the country's social structure and ideas, but holding fast to its original conviction that in the liberal arts and Christian ethic lie the best training for life; and

WHEREAS, now, having for so long supported and devotedly discharged the heavy responsibilities of his office, Mr. Schley has resigned from the Presidency of the Board of Trustees:
ALUMNI HORAE

93

BE IT THEREFORE RESOLVED:

That the Standing Committee of the Alumni Association of St. Paul's School express to Mr. Schley its deep and lasting gratitude, affection and esteem, and its hope that for many years to come he will continue in various capacities to serve the School, filled with the inner satisfactions and rewards which his unselfish labors have earned for him.

AND BE IT FURTHER RESOLVED, that a copy of this resolution be inscribed upon the records of this body.

Mr. Gordon introduced Mr. Kittredge who endorsed whole heartedly the resolution just passed. He emphasized in distinct terms the strong support which Mr. Schley had always given the School.

The difficulty of knowing how effectively the school is meeting its day-to-day problems was illustrated by the Rector's citing of divergent comments from parents, some rather critical of the administration and rules, some extremely flattering. Mr. Kittredge pointed out the partial truth in both points of view but felt the best assurance lay in the knowledge of, and confidence in, the excellent faculty now at the School and the fact that, in his opinion, the fibres of the School were never stronger. He referred to the present Sixth Form as an unusually good form. In concluding he clearly reflected the reliance of the administration of the School upon the continued strong support of the Alumni for which the Rector expressed his own heartfelt personal gratitude.

After the secretary had been instructed to send an appropriate telegram of congratulations to Henry Laughlin upon his election as the new chairman of the Board of Trustees, the meeting adjourned with the singing of "Salve Mater."

In addition to those mentioned as being present, the thirty-four at the meeting included: Trowbridge Callaway, '01, Arthur E. Neergaard, '09, and William M. Evarts, '05, former presidents, and the following members of the Standing Committee: E. Calvert Chester, '28, August Heckscher, '32, Martin J. Keogh, Jr., '04, Malcolm E. McAlpin, '28, Henry Parish, 2d, '22, J. Lawrence Pool, '24, Alvah W. Solloway, '34, H. P. Baldwin Terry, '31, Oliver DeG. Vanderbilt, 3d, '33, Lewis H. Van Dusen, Jr., '29, and Thomas Whiteside, '28.

FRANCIS DAY ROGERS, '31, Secretary

FORM OF 1909 ELECTS OFFICERS

As far as we know, the Form of 1909 is the only S.P.S. form that has organized and elected officers since leaving School. Percy L. Hance, its President, has written the Alumni Horae about their meeting and organization as follows: "Last April seventeen of the class 1909 met for an informal gathering at dinner at the Union League Club in New York. We decided to elect a Chairman, President and Secretary and Treasurer of our class. Those that were elected that evening to the above offices were Archer Harman, Percy Hance and Paul Cushman. As only seventeen of our class were present, as class agent, I sent out a letter telling the members of our class what had happened and asking them to vote for whomever they desired. I had responses from thirty-two members out of a possible forty-five who all voted for the above men. These men are therefore now the duly elected officers of our class. Their duties will not be too strenuous and will consist mainly in preparing for our Anniversary Reunions from now on and in planning little get-together parties now and then. I hope some of the other classes will think well of this idea and follow through with their classes."
As St. Paul's launches its ninety-fourth opening of School, six new men have strengthened the faculty. Three have become members of the English Department, one will teach Sacred Studies, one will teach science, and Dr. Walker will be the new Director of Health.

Dr. and Mrs. Walker

Dr. Thomas Walker, after ten years absence, has returned as Health Director of the School. Dr. Walker graduated from Columbia in 1925, and from Columbia Medical School in 1933. He was at St. Paul's in 1933 and 1939, and served in the Navy from 1941 to 1946. Since then he has had a private practice in Portsmouth, N. H. The father of a girl eight, and twin boys, four, he and his family have moved into the house vacated by Dr. Thorpe.

Mr. Marble in Lower

Mr. Peter Marble, who resides in Dormitory IV of the Lower School, will join the English Department. Mr. Marble graduated from Milton in 1943, served in the Navy for three years, and graduated from Harvard last year. His home is near Boston.

Mr. Ogilby in Old Upper

Mr. Peter B. Ogilby will live in the Old Upper, and teach General Science and Physical Geography. Mr. Ogilby attended the Loomis School in Windsor, Conn., and after graduating from Hamilton in 1943, he returned to teach there.
for three years. He taught at Salisbury School for the last three years, and comes to St. Paul’s with experience in coaching football, hockey and baseball. Mr. Ogilby is a son of the late Reverend Rensselaer B. Ogilby who was a master at the School during the year, ’19-’20, and later the president of Trinity College, Hartford.

Mr. and Mrs. Mellwaine

Mr. John C. Mellwaine, ’41, enters the Sacred Studies Department this year, and is a member of the Delphians and Shattucks. He graduated from Yale in 1947, having played on the hockey team there with Mr. Harman Jr. He has recently been a member of the Personnel Department at Macy’s, in New York, and hails from Portchester, N. Y. Mr. Mellwaine has moved into Mr. Clark’s former apartment with his wife and nine months old baby.

Mr. and Mrs. Hawley

Mr. William H. Hawley and his family move into the house at 289 Pleasant Street which was vacated by Mr. Merle-Smith. He will teach second and fifth form English, and also some special reading classes. Mr. Hawley has coached football, baseball, hockey and track. He graduated from Williston Academy in 1931 and from Dartmouth in 1935. He attended the Yale University Graduate School of Education in 1935-36 and got his M.A. degree at Middlebury College, Vermont. He also attended the Harvard Graduate School of Arts and Sciences. Mr. Hawley taught at Peddie School from 1936-42, served in the Red Cross and Air Force during the war, and comes to St. Paul’s after three years of teaching at Williston Academy.

Mr. Read in Brewster

Mr. David Read, ’40, will also join the English Department. Mr. Read was in the Army during the war, and graduated from Harvard in 1947, where he was a member of the track team. Since then he has been writing novels. Mr. Read, an Isthmian and Haleyon, may assist in coaching soccer. Six of his brothers have graduated from St. Paul’s and another will come next year.

Shop and Art Masters

Mr. John Healy will run the Manual Arts, while Mr. Kleber Hall, of Lexington, Mass., will teach drawing on Monday, Tuesday and Wednesday. Mr. Hall was here from 1942 to 1946.

BOOK REVIEW

Basic Composition, Book One, by Philip Burnham (Chicago: Scott, Foresman and Co.)

Mr. Burnham, who has succeeded Mr. Richards this year as head of the English Department, is the author of a new text-book designed to be a help in the teaching of oral and written expression. The lessons on grammar, punctuation, spelling, and usage are presented in thirty sections, each of which can be comfortably dealt with in a week, providing therefore a year’s course in composition for boys and girls of high school age. Each section ends with suggestions for composition topics, the various types of composition being taken up in order of difficulty. Anyone using this book will be impressed by the evidence in every paragraph of well digested experience, for it is by an author obviously familiar at first hand with the tasks that confront an English teacher in the classroom. The book is already in successful use at St. Paul’s School. Typical of the author’s sensible and realistic handling of language are the discussion of usage on three levels (substandard English, standard cultivated English, and formal or literary English); the suggestions for informal letter-writing; and the systematic treatment of punctuation and spelling. The book seems certain to achieve wide usefulness in the schools of the nation.

F. A. Philbrick
NEW PRESIDENT OF BOARD OF TRUSTEES

At the meeting of the Trustees on October 15, 1949, Henry A. Laughlin was elected President of the Corporation of the School. Mr. Laughlin succeeds Mr. Reeve Schley, who, after twenty-three years as President, offered his resignation.

Mr. Laughlin was born in Pittsburgh in 1892, entering the 2nd form of St. Paul's in the autumn of 1905. He was graduated from St. Paul's in 1910, and from Princeton University in 1914.

Entering the Houghton Mifflin Company at The Riverside Press in Cambridge immediately after graduation, Mr. Laughlin was made President of the company in 1939 and moved to the Boston office. His years of work had been broken by two and a half years of service in the First World War.

Mr. Laughlin has been a trustee of St. Paul's School since 1937. He is also a trustee of the Children's Hospital in Boston, a member of the Corporation of the Massachusetts General Hospital, a trustee of the Princeton University Press, a director of the Graphic Arts Research Foundation, and a director of the United Community Services of Greater Boston; in 1945 he served as General Chairman of the Greater Boston United War Fund.

Mr. Laughlin's son, Henry A. Laughlin, Jr., was in the class of 1937 at St. Paul's. His brother, Ledlie I. Laughlin, was in the class of 1908.

NEW YORK HOCKEY GAME—DECEMBER 21St
Madison Square Garden—3:15 p.m.

The Yale freshmen will meet the School team this year at Madison Square Garden at a date late enough to give other vacationing preparatory schools an opportunity to attend. Last year the game played with Princeton, while encouraging from the standpoint of the score, was a disappointment as to attendance. This year the date falls late enough so that every alumnus as well as undergraduate should be able not only to attend the game in person; maybe, also, tell friends to come along and see how hockey should be played!

As has been the custom for many years, the proceeds of the game will be donated to the School's camp for underprivileged boys, located at Danbury, N. H. With this point in mind, we believe the following reprint from The Pelican is of interest:

The School Camp had an extremely successful season last summer, as 144 boys flocked to Danbury, N. H., between June 28 and August 23. Four groups of 36 boys shared the two week periods: two groups were from New York, one from Boston, and one from Concord, N. H. Mr. Montgomery took charge of the camp, with John Merrick (SPS '47) and John Wright of last year's sixth form as his assistants, Bob Whitmer and Ledlie Laughlin (SPS '48) also helped with the work. There were no serious illnesses, and the aver-
age boy gained seven pounds during his stay at the camp.

The following boys were counselors at the camp last summer: From last year's sixth form: H. Low, George Kelly, Bliss Carnochan, Dory Friend, and George Appleton. From this year's sixth form: A. S. Hunter, Hooker Talcott, Martin Whitmer, Jim Wintersteen, Ron Fraser, M. J. Matthews, Tim Laughlin.

A generous contribution enabled a new porch and a new dock to be built, and new grass to be planted on the baseball field at the end of the season.

Tickets will be placed on sale at the office of the Alumni Association of St. Paul's School, 522 Fifth Ave., New York 18, N. Y., on December 1st. They will also be on sale at Madison Square Garden and at the Yale Club, New York, and at the Yale Athletic Association, New Haven, Conn. Prices are as follows:

Loge seats in blocks of nine (former box seats), including tax \$32.40
Arena seats, back of loge, including tax, each 2.40
Promenade seats, on ice level, including tax, each 2.40

Make checks payable to Alumni Association of St. Paul's School. If tickets are ordered by mail, please add 25 cents for registration.

It may not be generally known that many loyal alumni and friends of the School who have not been able to attend the game have in the past made donations to the School Camp. We take this opportunity to thank these people and hope they will continue their support and that others also may join them this year in contributing to the School Camp, the only charity sponsored by the Alumni Association.

ANNOUNCEMENT OF BUILDING PLANS

At the meeting of the Board of Trustees held on October 15th at St. Paul's School, the Trustees decided that since so large a part of the money necessary for the construction and future operation of the War Memorial Building is in hand, the plans can now go forward; therefore, I wish to announce that final building plans will be prepared at once and as soon as they are ready, they will be sent out for bids.

This fortunately comes at a time when we are informed that Mr. and Mrs. Charles Shipman Payson are ready to go ahead with the building of the Science Laboratory which they are giving to the School in memory of Daniel Carroll Payson of the Sixth Form of 1943 who was killed in action in Belgium on January 17, 1945.

It is hoped that construction on these two buildings will begin during the current school year and that they will be completed during 1951.

President of Board of Trustees

From the Memorial Fund Chairman

In view of the foregoing announcement by the President of the Board of Trustees, it is now important that all alumni and friends of St. Paul's who intend to contribute to the Memorial and Thanksgiving Fund, Second World War, do so promptly. Although the fund-raising campaign was closed officially on December 31, 1948, several people have deferred contributing pending definite assurance that the building would be built and others who have already contributed have indicated their intention to give more. Letters will be written to these but it is not thought practical to send letters to all the alumni. You will find a form of pledge card inserted at the back of this issue. We urge you to use it. The architects have succeeded in reducing the estimated cost of construction to $463,000. We have in hand in cash, pledges, and securities at approximate market value about $536,537. It is estimated that between forty and fifty thousand dollars additional will provide a sufficient operating fund.

1949 ALUMNI FUND REPORT

The receipts of the Alumni Fund for 1949 amount to $30,913.25. This is the first time in twenty years that the total has passed the $30,000 mark, with the exception of 1941, when the 25th Anniversary Form of 1916 gave $20,000, representing the maturity of an insurance policy started when 1916 left S.P.S. This year's amount shows an increase over the 1948 figures of $2,745.67; however, the number of contributors is 33 fewer than last year. This is accounted for largely by two or three forms which got a late start. As a result, the percentage of all active alumni giving decreased from 51.09% to 49.76%.
The total of the Alumni Fund includes the sum of $1,245.00, the 25th Anniversary gift to the School of the Form of 1924. Another special gift, raised by special effort on their part, is the 50th Anniversary gift of the Form of 1899, in the amount of $2,500.00, the largest amount ever raised by a 50th Anniversary Form.

Three forms have tied for first place this year, all with averages of 100%. They are 1884, 1887, and 1890. There follow in order 1909, 1933, 1916, 1922, 1883 and 1894, all with averages of 80% or more. Tribute is due to the splendid work of the respective Form Agents. Messrs. Lane, Lampson, Pier, Hance, Garfield, Littell, Payne, Stout, Zerega and Darling. An outstanding achievement was that of the Form of 1909 which celebrated its 40th Anniversary by raising $1,289.00.

Special mention should also be made of the following men who increased the number of contributors to their forms this year by six or more: Messrs. Wagner, 1937; Brooke, 1924; White, 1903; Parish, 1932; Hance, 1909; Francke, 1920; Payne, 1916; Pool, 1923; and Pease, 1896.

The record of the campaign for the current year is an exceptionally good one. The steady growth of the Alumni Fund has been maintained in a year when most of us were wondering how to balance our own budgets. It should be a comfort to the Trustees of the School and to the Rector to see these expressions of loyalty on the part of the Alumni.

The year has not been without its losses. Last February, Clarence E. West, '97, Executive Secretary of the Alumni Association for seventeen years, died. When he went, everyone who has ever had anything to do with the Alumni Association knew he had lost a good friend. In addition, the Form Agents for 1835 and 1897, Dr. Walton Martin and Lucius Wilmerding, passed on. All three of these men had a keen and active interest in St. Paul's and they will be missed.

The Alumni Fund Committee wishes to thank all the contributing alumni for their interest and cooperation; the Form Agents for all the hard work they have put in since February; and Miss Fisher for her invaluable assistance.

Laurance B. Rand, '27, Chairman.

ALUMNI HORAE
St. Paul's School

OLIVE FISHER, Managing Editor
Associate Editors:
MALCOLM K. GORDON, '87

THOMAS ROBB, 30, '31

To the Alumni:
Will you write us, giving announcements of engagements, marriages, births of children and items for the Alumni Notes column, and also anecdotes and stories of your days in School? Send us old photographs, which we will be careful to return. These are all of interest to other alumni. The Alumni Office should always be advised of the death of an alumnus.

Mr. Schley Resigns

Mr. Schley's resignation from the Presidency of the Trustees is one of those events which make us all realize anew how generously our alumni can serve the School. For twenty-three years Mr. Schley has held this post. A generation of St. Paul's boys now in the middle of their careers can look back upon him as a familiar figure during their days at the School, his authority and source of power perhaps something of a mystery, yet in his visitations having something of unmistakable importance to do. To the schoolboy, after all, it was the faculty that ran the show: it was the Rector whose word was the final law. Only afterwards could it be discovered that beyond these reigning deities were others, working unobtrusively, who watched over the School, upheld it, guided it in the formation of major policies, and provided a continuity even when Rectors came and passed.

Among these, Mr. Schley has by long tenure gained a place altogether his own. No one could calculate the hours he has given to the work, nor measure the steady influence which he has brought to bear upon decisions and events. While St. Paul's moved out of the epoch upon which Dr. Drury had placed his ineffaceable stamp, through the Rectorship of Dr. Nash into that of Mr. Kittredge, he has continued an unchanging counsellor, with a shrewd knowledge of practical affairs and an instinctive feeling for the School's values and ideals. While St. Paul's adjusted itself to the upheavals of war and gradual transformations in the social order, he has remained a calm figure on the bridge. His devotion to the school has been unvarying. Today two grandsons in the Lower School stand as pledges to the future, and entitle him, as he has remarked jokingly, to the privilege of retirement.

The retirement, as a matter of fact, is of a very limited sort. Mr. Schley could no more stop serving the School than the School could stop turning to him for the help he gives. Nevertheless, the Alumni Horae is glad to take this occasion to congratulate him upon his long record and to wish him well. His successor, Mr. Laughlin, can be assured of the fullest possible support of the Alumni Association in all he undertakes.

'33—A. Reynolds Morse has sent us the following account of an expedition on the Colorado River: "It has been observed for some time that the Navajo Indians do not have the same susceptibility to degenerative diseases, such as cancer and heart disease, that we do. My wife and I determined to see if this was true, and if it was also true that diet had anything to do with it. We visited the Navajo Reservation, and came to the conclusion that while it is true that few if any degenerative diseases are found among the Indians, it could not be a matter of their present diet, but one of heritage. The Navajo live in a poverty so abject that it defies description, and the amount of TB and contagious diseases offsets their apparent resistance to heart disease, multiple sclerosis, and cancer. After visiting the Reservation, we took to 10-man rubber boats and ran from Bluff, Utah, down the San Juan River, thence into the Glen Canyon section of the Colorado River. The trip was spectacular since we happened along when the rivers were at their highest stage in 26 years. The famous sand waves of the San Juan caused by silt piling up on the bottom, and the water running over it, were often 10 to 15 feet high, appalling not only ourselves but our boatmen. The several rapids on the San Juan were covered by high water. From the Colorado River, we walked in to see the Rainbow Bridge, and signed in as Nos. 6240-1 in the register at the most inaccessible of all national monuments. We left the river at Lees Ferry, Arizona, after 250 miles of boating through the last real wilderness left in our country. After ten days of being out of touch with the world, I found my last glimpse of our civilization before plunging into the canyons to be the most impressive of the trip: the huge trucks loaded with uranium ore grounding across the dusty desert, hauling the stuff from which the next war is being made."

'70—Major William Ely, one of Rhode Island's leading citizens who as a student stumbled upon the design of the modern telephone 71 years ago, died in Coronado, California, on May 30, 1949, at the age of 90. Major Ely was prominent in the textile industry of his native Rhode Island and was a Providence civic leader. For several years he had been feted at Brown University dinners as the oldest living alumnus. It was as an assistant in the Brown physics research laboratory that he made the suggestion that produced the first portable telephone set and revolutionized the telephone instrument. The Bell interests first saw the new portable set in the office of then-Governor Henry Lippitt. They were so impressed with the Brown telephone to which Ely had made his contribution that it went into production at the Boston laboratory of the company within a few weeks. Throughout his life Major Ely retained his interest in science but his active career was devoted to the management of cotton manufacturing firms which had been established by his maternal grandfather early in the 19th century. In Providence he was volunteer chairman of the Providence Safety Council and, as volunteer consulting engineer for the Board of Police Commissioners, he worked out a traffic plan for the city. For years he was a major in the Rhode Island Militia and he was president of the Gatling Gun Association of Rhode Island.
